Appendix-

PC1- Personal Care 1

Level 1 personal care entails housekeeping, cleaning, meal preparation, grocery shopping, and laundry.

PC2- Personal Care 2

Level 2 personal care consists of PC1 level tasks as well as assistance with personal needs such as bathing, dressing, toileting, walking, turning and positioning, feeding, and routine skin care.

PC/CD- Personal Care through Consumer Directed

PC1 or 2 provided through consumer-direction is a person-centered planning approach that empowers the older adult by enabling them (or their representative) to hire, train, and oversee their in- home workers.

HDM- Home Delivered Meals

Home-delivered meals meet strict dietary requirements and are delivered to older adults who have been assessed (by way of a comprehensive in-home assessment) to need the service to remain in their homes and communities. The service combats loneliness and includes a safety check.

CONG- Congregate Meals

Healthy, nutritious, balanced meals are served to older New Yorkers, up to five days a week, in senior centers, senior clubs, senior housing complexes, town halls and other nearby locations. Community dining options are offered in a variety of settings and include restaurants and portable (Grab and Go) meals. Socialization for older adults is a key component of this service.

NutCou- Nutrition Counseling

Registered Dietitians offer individualized nutrition counseling for chronic-disease management and to improve the nutritional status of older adults.

ADS- Social Adult Day Services

Social Adult Day Services (SADS) is an important component of the community-based service delivery system that helps to delay or prevent nursing home placement and the need for other more costly, yet preventable services while providing vital assistance to the older person with cognitive and/or physical impairments and supporting their informal caregivers.

CMan- Case Management

Case Management services provide the older adult and family member help in navigating complex systems, monitoring the individual, applying for benefits and programs, and linking to programs and services. Case management provides advocacy, access, assessment, planning, communication, education, resource management, and service coordination.

Transp.- Transportation

Local offices for the aging and senior centers provide transportation to doctor appointments, nutrition sites, shopping or other vital destinations.

Assisted Transp- Assisted Transportation

Assisted transportation provides support to the older adult as they depart their home, enter the vehicle, and into the destination.

Legal- Legal Assistance

Legal assistance addresses legal issues related to income, health care, nutrition, housing, utilities, protective services, guardianship avoidance, abuse, neglect, exploitation, and age discrimination.

InHomeC&S- In Home Contact and Support

In Home Contact and Support enables eligible older adults to remain in their homes. The program provides a well-planned, coordinated package of in-home and other supportive services, including case management, designed to supplement informal care.

InHome C&S CD- In Home Contact and Support Consumer Directed

Consumer-direction is a person-centered planning approach that empowers the older adult by enabling them (or their representative) to hire, train, and oversee their in-home workers. In Home Contact and Support enables eligible older adults to remain in their homes. The program provides a well-planned,

coordinated package of in-home and other supportive services, including case management, designed to supplement informal care.

PERS- Personal Emergency Response System

Personal emergency response systems (PERS), also known as medical alert systems, provide continuous in-home monitoring, often with fall detection, for vulnerable older adults. These devices enable older adults to live alone safely and allow caregivers peace of mind when they need to leave the home.

Caregiver Services

This package of services and supports assist family members and informal caregivers with caring for a family member at home for as long as possible. Caregiver services include individual caregiver counseling, organization of caregiver support groups, and/or caregiver training to assist caregivers in the areas of health, nutrition, and financial literacy, and in making decisions and solving problems relating to their caregiver roles.

Health Promo EB- Health Promotion Evidence Based

Evidence Based Intervention (EBI) have been proven effective to help individuals develop self-management skills and make lifestyle changes to prevent and/or manage their conditions—leading to enhanced well-being and improved health outcomes. Evidence-based programs are shown to be effective at helping participants adopt healthy behaviors, improve their health status, and reduce the use of costly medical services.

Home Mod- Home Modification

Home improvements, updates, and repairs help older adults maintain their independence and prevent accidents. Home modifications range from simple changes, like replacing doorknobs with pull handles, to major structural projects such as installing a wheelchair ramp.
