On Saturday, March 11, State Senator Joseph P. Addabbo, Jr., his office team and family invited the public to join them for the grand opening ceremony of his new office location in Woodhaven. Addabbo's new office is located at 84-16 Jamaica Avenue, and while the office has been open since the State Senate's legislative session began back in January, this party was organized when the front signage was installed, as a way to bring the community together and let everyone know that the office is open.
