

NEW YORK STATE SENATOR

Pamela Helming

Supporting American-Made Manufacturing and Upstate Jobs

PAMELA HELMING September 27, 2024

| ISSUE: **MADE IN AMERICA**

Senator Helming Supports American Jobs

As your State Senator, one of my top priorities is supporting job creation and economic development. Our children should have the opportunity to pursue a good job and rewarding career right here in the Finger Lakes and Upstate New York. As the daughter of a steelworker, I understand that home-grown jobs, like those in manufacturing, farming and small business, are important to the future of our communities and the success of families.

That is why I believe items purchased with taxpayer dollars should be made in America. Your tax dollars should be used to purchase products that directly support our economy!

If you agree, make your voice heard for American Jobs and American-made products by signing my petition [here!](#)

Senator Helming supports American jobs, American products and our local economy and sponsors this important legislation:
