BRONX, NY-It was a beautiful day as Senator Jeff Klein (D-Bronx/Westchester)enjoyed a tour of Westchester Square Medical Center's 5th Annual Health Fair with the hospital's president, Mr. Alan Kopman. The Senator was among hundreds of area residents who streamed through the fair, collecting information on a variety of topics from skin cancer, to hypertension, to tips for a healthy diet. An adamant opponent of the Berger Commission's recommended closing of WSMC, Senator Klein reiterated his committment to finding a

more effective solution for this beloved community institution.
