“Consistent with the rules reform adopted July 9, 2009, the New York State Senate is now making Senate payroll records publically accessible online in a searchable and sortable format. This is another step demonstrating the Senate Majority’s commitment to making state government more open, accountable and transparent for the people it serves.”

To view the New York State Senate payroll records go to <http://www.nysenate.gov/opendata> and search “payroll report.”
