

NEW YORK STATE SENATOR

Thomas K. Duane

Announcement of Joint Public Hearing on Improving Patient Safety in New York

THOMAS K. DUANE September 28, 2009

| ISSUE: **HOSPITALS**

| COMMITTEE: **HEALTH**

SENATE STANDING COMMITTEE ON HEALTH

ASSEMBLY STANDING COMMITTEE ON HEALTH

NOTICE OF JOINT PUBLIC HEARING

Oral Testimony by Invitation Only

SUBJECT: Improving patient safety in New York: Understanding and improving the current system

PURPOSE: To learn how New York can improve patient safety in hospitals across the State

New York City

Monday

October 19, 2009

10:00 A.M

Assembly Hearing Room

250 Broadway, 19th Floor

Hospitals across the nation, including New York, too often suffer from medical errors and other adverse incidents which endanger or harm patients. To address this problem and improve patient safety, New York, in 1985, became one of the first states to require hospitals to report and initiate actions based on adverse events occurring in their facilities. To simplify reporting and enable hospitals to obtain feedback, in 1998, New York created the New York Patient Occurrence and Tracking System (NYPORTS).

Accurate and complete reporting of events is essential if NYPORTS is to accomplish its goal of improving quality of care. Unfortunately, problems of underreporting by hospitals have plagued NYPORTS since its inception. A *New York Daily News*' investigative report this past summer as well as New York City Comptroller William Thompson's recent report, *The High Costs of Weak Compliance With the New York State Hospital Adverse Event Reporting and Tracking System*, charge that there is inadequate oversight of hospitals' compliance with the system.

The purpose of this hearing is to learn how New York can improve patient safety in hospitals across the State. What is the role of NYPORTS? How well is it working? How can it be strengthened and made more effective to protect the public? What other measures should New York take?

Persons invited and wishing to present pertinent testimony to the Committee at the above hearing, or planning to attend, should complete the hearing reply form below and return as indicated as soon as possible, but no later than **Wednesday, October 14**. It is important that the form be fully completed and returned so that persons may be notified in the event of emergency postponement or cancellation.

Oral testimony is by invitation only and will be limited to ten minutes in length. In preparing the order of witnesses, the Committee will attempt to accommodate individual requests to speak at particular times in view of special circumstances. This request should be made on the reply form or communicated to Committee staff as soon as possible. Fifteen copies of any written statement should be submitted at the hearing registration table. Written testimony, whether presented in person at the hearing or not, should be e-mailed (as a Word or PDF document) before the hearing or as soon as possible after the hearing to: Allison Jacobs, ajacobs@senate.state.ny.us, Richard Conti, contir2@assembly.state.ny.us and Estibaliz Alonso, alonsoe@assembly.state.ny.us.

In order to meet the needs of those who may have a disability, the Senate and Assembly work to make their facilities and services available to all individuals with disabilities. For individuals with disabilities, accommodations will be provided, upon reasonable request, to afford such individuals access and admission to Senate and Assembly facilities and activities.

Questions about this hearing may be directed to Denise Soffel of the Senate Health Committee at 212-633-8052 or denise@tomduane.com; or Richard Conti of the Assembly Health Committee staff at 518-455-4941, contir2@assembly.state.ny.us; or Estibaliz Alonso of Assembly Program and Counsel staff at 518-455-4311, alonsoe@assembly.state.ny.us.

Senator Thomas Duane Chairman Committee on Health	Richard N. Gottfried Member of Assembly Chairman Committee on Health
