I would like to take this opportunity to announce a new initiative taking place in our community. The New York State Division of Veterans' Affairs along with veterans service organizations, federal, state and local agencies will be hosting a benefit seminar for veterans age 55 and older. This seminar will provide veterans and their families with information on programs and services in New York State that may be available to them. The event will occur on **June 24th at the Monroe Community College.**

Often times our veterans age 55 and older have not been in contact with the federal, state or local agencies which provide assistance and benefits. These seminars are intended to provide valuable information on new programs and benefits that impact New York State's veterans and their families. Please see the attached flyer for additional information.
