

NEW YORK STATE SENATOR

Mark Grisanti

Senator Grisanti Meets with The Future Leaders of Western New York

MARK GRISANTI February 24, 2011

| ISSUE: **CONSTITUENTS CORNER**

Senator Grisanti met with roughly 40 people from "Leadership Buffalo" in his Buffalo District office and spoke with them about what his plans are for the 60th District, reducing the budget and education.

"Three years ago I would have never thought that I would be a State Senator, but here I am today proudly serving the people of Western New York, you can do anything that you want

to do", Sen. Grisanti explained to the group. "Always follow your dreams and don't give up," continued Sen. Grisanti.

Leadership Buffalo brings together existing and emerging leaders from diverse backgrounds and perspectives in order to increase their ability to effectively lead; to develop an in-depth knowledge of the critical issues facing Western New York; by providing direct access to the top level leaders and decision makers in each sector we examine; and through networking and sharing hands-on experiences with the 1000 plus Leadership Buffalo graduates in our Leadership Buffalo Network.

Leadership Buffalo acts as a catalyst by bringing diverse individuals together who must decide for themselves how THEY will serve the community. It is the responsibility of each member to face, accept and act on this challenge.
