

NEW YORK STATE SENATOR

Mark Grisanti

Statement on State Education Awards For Buffalo Public Schools

MARK GRISANTI August 15, 2011

| ISSUE: **EDUCATION**

“This nearly \$10 million in funds for the Buffalo Public Schools represents a positive step towards rehabilitating the affected schools. However, this funding is just a minor step in transforming these schools. It is only through collaborative work between all stakeholders that true and needed changes can be made to reform the school district. We continue to pledge to meet and work with each of these stake holders to reform the Buffalo Public Schools so that our children can receive a quality education.”

-Senator Mark Grisanti, 60th District
