(Queens, NY)- In order to enhance the relationship between residents and the community, Senator Smith is pleased to kick off a community beautification and participation competition. This competition is designed to increase the awareness of and appreciation for the overall look of our community and the importance of engaging its individuals and groups. The goal is to emphasize the aesthetic richness of the Southeast Queens landscapes, buildings and parks. The overall look of a community plays an integral role in fostering community pride, building confidence in prospective businesses to relocate into the area, and establishing an acceptable standard for surrounding neighborhoods to the benefit of everyone.

“Community participation is vital to establishing an informed and empowered community” stated Senator Smith. “In a time where our collective community involvement has slowed, it is important that we reignite the flame and work to reenergize our community.
