

NEW YORK STATE SENATOR

Michael F. Nozzolio

Senator Nozzolio Congratulates Clarkson University Student David Pannucci of Seneca Falls on Exhibiting Innovative Renewable Energy Project

MICHAEL F. NOZZOLIO April 26, 2012

| ISSUE: **RENEWABLE ENERGY**

ALBANY- Senator Nozzolio congratulates Clarkson University senior David Pannucci of Seneca Falls on being invited to exhibit his renewable energy project at the State Capitol as part of the New York State Pollution Prevention Institute's "Greening Your Campus" event. The "Greening Your Campus" initiative showcases the innovations of our State's future leaders in green technology in solving real-world environmental challenges. David, an Environmental Engineering major, was part of a team of Clarkson students who developed a bio-digester to convert unused food from the University's cafeteria into a source of renewable energy for the campus.
