JOSÉ M. SERRANO October 31, 2012

| ISSUE: **HURRICANES**

The aftermath of Hurricane Sandy has created a great deal of devastation in many communities throughout New York State. Our government agencies and first responders have been working hard to make sure our infrastructure is up and running again, but there is still much work to do. It is important that those of us who are able to volunteer give back to those who were severely impacted by Hurricane Sandy through loss of power, water, and damages due to severe flooding. Below you'll find information on agencies that are seeking volunteers and information on where to go if you have suffered damages due to Hurricane Sandy.
