(East Harlem, NY) - Senator José M. Serrano spoke to government students at Renaissance Innovation High School about his career in New York government. The visit was an opportunity for the students to receive an inside look on working in government and civil service. Senator Serrano spoke of the importance of leadership, advocacy and fighting for the needs of the community.

"I had such a great time speaking with these impressive and poised students" said Senator Serrano. "They were so interested in learning more about government and very insightful about issues affecting our community on a local, state and national level. Their engaging questions allowed us to cover a broad range of subjects. I am very proud of them, and I hope to visit again soon," concluded Serrano.
