

NEW YORK STATE SENATOR

Jack M. Martins

Senator Martins Meets WITH Local Officials to Discuss Water Remediation Efforts in Roslyn Estates

JACK M. MARTINS March 5, 2014

| ISSUE: **ENVIRONMENT**

Senator Jack Martins (R-Mineola) recently met with state and local officials to discuss the ongoing water remediation efforts in the Village.

Senator Martins continues to work with community officials in getting proper remediation of one of the Roslyn Water District's wells with as minimal impact as possible on Roslyn Estates residents. Senator Martins is supporting efforts to construct an air stripper, which is needed to address Freon contamination in one of the Roslyn Water District's wells, at Christopher Morely Park. Building the air stripper at the park, rather than at Diana's Trail well in the middle of a residential area, will help maintain residents'

quality of life.
