Senator Jack Martins (R-Mineola) recently welcomed officials from the Sewanhaka and Franklin Square School Districts to the State Capitol in Albany.

Senator Martins discussed a variety of issues with the officials, including his efforts to deliver additional state education aid to the districts and the rest of Long Island's schools; his concerns with the State Education Department's flawed implementation of the common core; and the need for additional mandate relief to help school districts save taxpayer dollars.

Senator Martins (center) is pictured as he meets with Sewanhaka and Franklin Square School District officials in the Legislative Office Building in Albany.
