Statement by State Senator Daniel Squadron on Today's World Trade Center Arbitration Ruling

DANIEL L. SQUADRON January 26, 2010

“While I am still reviewing the details of the decision, it seems this ruling came to the same conclusion the community and I have been advocating: we need an agreement that assures that construction is completed as soon as possible. I urge the Port Authority and Silverstein Properties to spend these forty-five days negotiating around the clock to arrive at an agreement that will allow construction to proceed and conclude. Further fights and delays are unacceptable.”
