On Wednesday, September 15th, Senator Robach made remarks at, and helped cut the ribbon at, a ceremony to mark the opening of Ada Ridge Court II in Greece. A devastating fire in 2009 during the final stage of construction required the building to be completely razed and rebuilt from the ground up. Through the dedication of the Greece Fire Department, PathStone Corporation, the development team, and financing partners, the project was reconstructed in less than 8 months.
