| ISSUE: **ECONOMIC DEVELOPMENT, SMALL BUSINESS, JOBS & EMPLOYMENT**

On Wednesday, I had the privilege to speak at the (88+) 1 Year Anniversary celebration at Rochester Silver Works, LLC. RSW, formerly an Eastman Kodak company manufacturing department, became a private company as of October, 2011. RSW retained ALL 55 highly skilled former Kodak employees, along with their expertise, the manufacturing site and all equipment. The facility covers over 10 square acres of land with full capabilities to collect, refine and manufacture silver scrap to high purity silver and silver based chemicals.
