

NEW YORK STATE SENATOR

Terry Gipson

The Dyson Center for Cancer Care at Vassar Brothers Medical Center

TERRY GIPSON July 24, 2013

The Dyson Center for Cancer Care at Vassar Brothers Medical Center is dedicated to quality care. Through prevention, screening, diagnosis, and treatment, they offer state-of-the art services, caring and hope for those effected by cancer. Janet Ready President of Vassar Brothers Medical Center, Sandi Cassese Vice President for Oncology Services, Deb Pierce New York State Nurses Association and David Ping Senior Vice President for Strategic Planning shared with me their vision for the future. As they put it, they wake up every day with the goal of curing cancer. For more information on the Dyson Center and a full list of the programs they have to offer please see the link below.
