New York State Senator Michael Venditto, (R, C, I- Massapequa) (pictured right) recently welcomed Kennedy High School Senior, and Bellmore resident, Blake Linzer, (pictured left) to spend several weeks working in his district office as part of Kennedy's "Senior Experience" program.

Kennedy's "Senior Experience" is a unique hands-on program which allows graduating seniors to choose a field of interest and work with professionals in that field. During the course of the program, students learn about the daily routines and challenges in a specific

line of business while gaining knowledge of the particular requirements involved.

Blake, will be attending Brandeis University in the fall, assisted our office with a number of different constituent service and community outreach programs.
