Progress can be seen along Walnut Avenue in Niagara Falls thanks to the partnership of the YWCA of Niagara and Housing Visions. Senator Ortt took a walking tour of the latest project that'll stabilize and revitalize the neighborhood. Construction is underway on seven new buildings and renovations are ongoing for a vacant school administrative building that'll serve as quality, affordable housing for low and moderate-income families in Niagara Falls. Ortt said the Walnut Avenue Homes project will not only transform the neighborhood, but

also the quality of life for our residents.
