Gratified to see so many community residents and young people turn out for our #ThePipeline Youth Resource Fair on Saturday, co-hosted with Assembly Member Latrice Walker. We had more than one hundred neighbors turn out to receive information about educational opportunities, services on offer, community groups, and assistance finding employment. I am especially pleased to have so many community-minded, committed partners help in putting this Youth Resource Fair together. More than twenty organizations, city agencies, and community groups participated. Thanks for all your hard work!
