Senator Jack M. Martins (R-7th Senate District) recently took part in Vision Long Island's 14th annual Smart Growth Summit. Senator Martins talked about the importance of infrastructure investments to create jobs, grow the economy, and improve our quality of life.

“Much of Long Island’s infrastructure is nearing, or has already reached, the end of its useful life. Proper investments are needed to repair and improve our infrastructure so that we can set the stage for continued economic development and growth in the region,” said Senator Martins.
