1. Apply to Serve on Your Community Board!

Community boards bring government directly to the people and members play a vital role in ensuring that our neighborhoods receive the services they need to continue to thrive.

Members consult with government agencies and elected officials regarding matters that directly impact the welfare of the district. Members also advise the City about the district's budgetary and capital needs, and help prepare the Community District Needs Statement.

NOTE: Only New York City residents, who either live, have a business, or other significant interest in the community district, are eligible to be considered for membership on a local community board.

Community Board members, as unpaid public servants, are governed by the City's Conflicts of Interest Law (City Charter-Chapter 68). The laws' purpose is to ensure that public servants do not use or appear to use their public positions to benefit their private interests or those of their families or associates.
