The meeting is open to the public, and all are invited to attend.

Representatives from Sheen Housing, the New York State Department of Environmental Conservation, New York State Homes and Community Renewal, Empire State Development, the federal government, and the Army Corps of Engineers have been invited to help answer any questions that attendees may have. Attendees are encouraged to assemble the required documents and prepare as much of the application as possible in advance of the session.

People should apply now as funds are available on a first-come, first-served basis. Grants may cover damages incurred from Jan, 1, 2017 through Aug, 31, 2017, and grant awards will be determined through the designated agencies. “I am proud that the legislation I sponsored to create the Lake Ontario Recovery Fund to bring much-needed assistance to those affected by the historic flooding of Lake Ontario has passed both the Senate and Assembly and has been signed into law. Now, however, the real work begins as we help people navigate the application process to get the money they need to repair their homes, businesses, and communities and get on the road to recovery from this horrible natural disaster. I look forward to hosting this meeting with Assemblyman Oaks so that we can share all of the information that is available and get people the help that they need,” Senator Helming said.
