STAR Check Delivery Schedule

The New York State Department of Tax and Finance has created a new website allowing homeowners to search for STAR check mailing dates.

While the website does not specifically advise when a check will arrive, it provides notice of when checks have been mailed to homeowners in individual school districts.

There are two types of STAR: the basic STAR credit checks, which last year averaged about \$750 per household, and the enhanced STAR credit for those over 65 years and older, which amounted to about \$1,500 last year.
