

NEW YORK STATE SENATOR

Elaine Phillips

Senator Elaine Phillips Tours Spectronics Corporation In Westbury

ELAINE PHILLIPS November 15, 2017

Senator Elaine Phillips recently toured Spectronics Corporation in Westbury.

“Thank you to Jon Cooper and Spectronics Corporation for inviting me to tour the facility and learn more about your current and upcoming projects,” Senator Elaine Phillips said. “Not only do they stimulate our local economy by creating jobs, Spectronics gives back to the community in numerous ways, including supporting local STEM programs in our schools.”

Spectronics Corporation is the world’s leading manufacturer of ultraviolet equipment and fluorescent materials and has been family owned and operated for 62 years.
