| ISSUE: **GUN VIOLENCE, STOP THE VIOLENCE, VIOLENCE, CRIME**

Students participated in the March for Our Lives yesterday, using peaceful protest to convey a powerful message about the need to stop gun violence. The effort to stand up against gun violence had an important new beginning yesterday and we must carry this movement forward today, tomorrow, and every day thereafter until the scourge of gun violence has been lifted from our communities.

Thanks to all the young people who spoke out about this national problem and let their voices be heard calling upon our nation to do better.
