This College Fair is part of Senator Persaud's commitment to educational excellence. This event will provide a unique opportunity for high school students within Senate District 19 to obtain relevant information and resources they need to succeed.

"Our students deserve every opportunity to obtain a college degree so that they can reach their full potential. For some students especially those in certain ethnic populations and lower socioeconomic status, access to a tertiary education is extremely limited. I am proud to offer this type of intervention in the 19th senatorial district because the research has proven that college preparation is a key factor in determining whether a student attends college." Senator Persaud said.
