

NEW YORK STATE SENATOR
Anna M. Kaplan

Senator Anna M. Kaplan Helps Pass Legislation Fighting Opioid Addiction

SENATOR ANNA M. KAPLAN June 12, 2019

| ISSUE: **COMBATTING HEROIN AND OPIOID ADDICTION, SUBSTANCE ABUSE TREATMENT AND RECOVERY**

Senator Anna M. Kaplan and the Senate Democratic Majority passed legislation to combat the opioid epidemic affecting communities on Long Island and across New York State. The series of bills will fight addiction by providing additional resources to those fighting and recovering from opioid abuse. Specifically, the legislation will encourage and monitor the distribution and use of opioid antagonists like Narcan, expand Medication Assisted Treatment Programs, increase access to abuse-deterrent drugs, and establish a pilot program for Infant Recovery Centers.

“The crisis of addiction has touched every community across Long Island, and fighting this scourge demands that we do everything in our power to get people the help they need to recover,” said **Senator Anna M. Kaplan**. “These bills will help people to access much-needed treatment options to support their recovery.”

The legislation that is being passed by the Senate Democratic Majority includes:

- **Administering of Opioid Antagonist:** This bill, [S.5457](#), sponsored by Senator Pete Harckham, will expand the entities authorized to possess, distribute, and administer an opioid antagonist to reverse an opioid-related overdose to include public accommodations.
- **Online Directory of Opioid Antagonist Distributors:** This bill, [S.4499](#), sponsored by Senator Pete Harckham, will establish an online directory for distributors of opioid antagonist.
- **Opioid Risk Awareness:** This bill, [S.4277-A](#), sponsored by Senator Pete Harckham, will require health practitioners to discuss with patients the risks associated with certain pain medications before prescribing them, as well as alternative prescriptions available to them.
- **Expand Access to Medication Assistance Treatment:** This bill, [S.5935](#), sponsored by Senator Pete Harckham, will expand access for eligible Medicaid individuals to medications that treat substance use disorders.
- **Medication Assisted Treatment Program:** This bill, [S.2161](#), sponsored by Senator Jamaal Bailey, will establish a voluntary medication assisted treatment program at all state correctional facilities and local jails and will be offered to those fighting opioid addiction.
- **Access to Abuse Deterrent Formulations:** This bill, [S.6397](#), sponsored by Senator David Carlucci, will ensure abuse-deterrent drugs approved by the FDA are accessible to patients and that that insurance coverage does not disadvantage access for patients to drugs approved by the FDA as abuse-deterrent.
- **Infant Recovery Centers:** This bill, [S.5480](#), sponsored by Senator Gustavo Rivera, will require the Dept. of Health and The Office of Alcoholism and Substance Abuse Services, to establish a pilot program of infant recovery centers for infants experiencing opioid or other drug withdrawal symptoms.
