Senator Helming, Assemblymen Johns and Manktelow Hosting Electronics Recycling Event in Webster

PAMELA HELMING August 12, 2019

FREE ELECTRONICS RECYCLING EVENT

Saturday, September 14th
9:00 a.m. - 12:00 p.m.

GENEVA – Senator Pam Helming, Assemblyman Mark Johns, and Assemblyman Brian Manktelow today announced that they will host an Electronics Recycling Day event. This event will take place on Saturday, September 14 from 9 a.m. to 12 p.m. at Xerox, located at 800 Phillips Road in Webster. It is made possible with support from Sunnking Inc. electronics recycling company.

People may drop off and properly dispose of computers, tube TVs and monitors, telephones,

microwaves, and other small electronics and appliances. No more than two TV sets or monitors per vehicle will be accepted. Please visit sunnking.com for a full list of acceptable items.

“Electronic goods cannot be recycled in the same manner that regular recyclable material is, and it should not be thrown out with our usual garbage. It needs to be disposed of properly and safely, and that is what our partners at Sunnking will help our community members do at this event. At this event, people can get rid of the old electronics that have been cluttering up their homes. Thank you to Assemblyman Manktelow and Assemblyman Johns for joining me to put on this terrific event, and thank you to Sunnking and Xerox for making it possible,” Senator Helming said.

Assemblyman Manktelow said, “There are many people who get stuck with these outdated or broken electronic items. Constituents call my office all the time for advice on how to properly dispose of them. Without these recycling events, it is really difficult and can also be expensive. There are not a lot of options, especially in rural areas. We don’t want to see them become litter because people don’t know what to do with them and want to eliminate the clutter in their homes. We’re also going to have the Boy Scouts from Wayne County help out with the recycling event, so they can share in the generous two-cent per pound donation from SunnKing, Inc. I am happy to sponsor this event with Senator Helming.”

Assemblyman Johns said, “Saving the environment is more than a slogan. We are pleased to team up with Sunnking to offer this opportunity for constituents to recycle old and unused electronics and help protect the planet and our environment.”

Sunnking CEO Duane Beckett said, “We are excited that Senator Helming, Assemblyman Johns, and Assemblyman Manktelow are all joining forces with Sunnking to bring free

electronics recycling to the area. These events are getting bigger and bigger, and without this support, they would not be as successful. We thank everyone involved.”
