

NEW YORK STATE SENATOR

David Carlucci

Senator David Carlucci's statement on possible Coronavirus cases in NYC

SENATOR DAVID CARLUCCI February 2, 2020

| ISSUE: **CORONAVIRUS, PUBLIC HEALTH AND SAFETY**

q

I am closely monitoring the situation with the Coronavirus. Its important our State Health Department and local entities are communicating and constantly informing the public, as there is no vaccine for the Coronavirus and reducing the spread of it is critical. New Yorkers should follow the CDC's recommendations to prevent the spread of disease and seek medical treatment immediately if they suspect they have symptoms."
