David Carlucci

Senator Carlucci's Statement on Nuclear Regulatory Commission Inspector General Report Revealing Dangerous Failings

SENATOR DAVID CARLUCCI February 28, 2020

| ISSUE: **INDIAN POINT**

q

The Nuclear Regulatory Commission Inspector General report shows there is much work to be done by the NRC to gain the confidence of myself and the public, as the commission is charged with overseeing the decommissioning of Indian Point and ensuring the health and safety of Hudson Valley communities. We demand answers from NRC Chairman Kristine Svinicki. The Chairman needs to come to the Hudson Valley immediately and outline the steps being taken to address our safety and explain how the commission will properly inspect and safeguard the pipeline near Indian Point moving forward.
