## Important Information About Coronavirus

JIM RANNEY March 12, 2020

| ISSUE: **CORONAVIRUS; PUBLIC HEALTH**

As the COVID-19 situation continues to evolve, it is important to stay up to date on the latest public health information.

While there is currently no vaccine for the novel coronavirus, everyday preventative actions can help stop the spread of this and other respiratory viruses:

- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer.

- Avoid touching your eyes, nose and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces.
- Individuals who are experiencing symptoms and may have traveled to areas of concern or have been in contact with somebody who has traveled to these areas should call ahead to their healthcare provider before presenting for treatment.

New Yorkers can call the State hotline at 1-888-364-3065, where experts can answer questions regarding the novel coronavirus.

In addition, the Department has a dedicated a [website](#) which was created as a resource with updated information for New Yorkers.
