

NEW YORK STATE SENATOR

Patty Ritchie

An Important Message from Senator Ritchie to St. Lawrence Co. Residents

PATTY RITCHIE April 7, 2020

Dear St. Lawrence County Residents,

I am writing with a critical message I was asked to share. Earlier today, the St. Lawrence County Sheriff's Department issued a Travel Restriction Advisory for the County. Through this advisory, residents are asked to refrain from all non-essential travel until further notice.

The advisory notes that we are in a very critical juncture in the fight against COVID-19, with all the models suggesting that if we do not practice social distancing and limit non-essential

travel and gatherings, the consequences could be dire.

To read the advisory in full, [click here](#). Please note, the Sheriff stresses that you should only travel if you are buying food, are traveling to or from a deemed essential occupation, or seeking medical attention.

Currently, **rates of COVID-19 cases are doubling every two-and-a-half days in St. Lawrence County**. Additionally, according to Dr. Andrew Williams, Head of the St. Lawrence County Board of Health, St. Lawrence County has **the most rapid growth rate of Coronavirus in the State**. You can read Dr. Williams' comments on the spread of the virus—and his advice for how to protect yourself—by [clicking here](#).

I cannot stress how critical it is for you to abide by this advisory, stay home and stop the spread. I know if we all do our part, we will get through this.

Sincerely,

Patty
