Alexis Weik

Information on the Fire Island to Montauk Point (FIMP) Project

ALEXIS WEIK June 8, 2021

Time is running out!

The Fire Island to Montauk Point project is about to meet its deadline. This is your final opportunity to review the presentation from the Army Corps of Engineers which not only gives detailed information but will also address the frequently asked questions.

I encourage you to then reach out to your town officials and let them know if you support or oppose this project. It is critical that your town supervisors know where you stand in order to opt in or out before this deadline passes. Thank you for making time to review and weigh-in.
