Addabbo statement on mobile sports betting licenses

SENATOR JOSEPH P. ADDABBO, JR. November 8, 2021

| ISSUE: **MOBILE SPORTS BETTING, GAMBLING, SPORTS BETTING, ADDABBO**

“With New York moving closer to the goal line to witness its first mobile sports bet, we must remain focused on providing a premier product and giving New Yorkers the best mobile sports betting options in order to effectively compete with neighboring states like New Jersey. I am confident that with the announced, credible winning bids, we have the potential of eclipsing other states in mobile sports betting handle, raise significant revenues and funding for education and youth sports, while effectively addressing the problem gaming issue. Of utmost importance remains the timeframe for the servers that validate the mobile bets to be up and running, ready to take New York’s first mobile sports bets in January and in time for the 2022 Super Bowl.”
