“When we brought mobile sports betting to New York, we had confidence it was going to be a success, but to be able to break the national record of total handle for sports betting in a single month in our very first month, with primarily only six sportsbooks, is both rewarding and exciting,” said State Senator Joseph P. Addabbo, Jr., the Chair of the NYS Racing, Gaming and Wagering Committee. “Breaking this record proves that New York was ready for mobile sports betting and we are providing our state with a new revenue, educational and addiction funding source. It also can give us an indication of where we go from here, especially with the Super Bowl within our sights. The future is extremely bright for mobile sports betting in New York!”
