

NEW YORK STATE SENATOR

Robert G. Ortt

Statement from Senate Republican Leader Rob Ortt on the Mask Mandate Announcement by the Governor

ROBERT G. ORTT February 9, 2022

| ISSUE: **MASK MANDATE**

The end of the 'business mask mandate' is long overdue. But it is absolutely outrageous that Governor Hochul is extending her mask mandate for school children, with no established off-ramp. The public deserves to know which metrics and so-called science her administration used to make this misguided decision.

At a time when restrictions across our country and the entire world are being dropped, New Yorkers are desperate for the same. They are desperate for leadership, desperate for checks and balances. This Governor and the Democrat-led legislature are providing NONE of the above and instead adding layers of more frustrations to New Yorkers.

My Republican colleagues and I have fought against these mandates for years, and will continue to do so until every single unconstitutional mandate is lifted.
