disadvantaged communities. AYE

S659 Adds a new section 9-0508 to the environmental conservation law to allow the department to enter into agreements for the purpose of aiding in the siting and connectivity of renewable energy installations, as well as the transmission and distribution of electricity from those installations on state forest lands classified as reforestation lands. S7176 Establishes the "Advanced Building Codes, Appliance and Equipment Efficiency Standards Act of 2021." It would require copies of certain documents physically posted in a workplace to be made available to employees electronically through the employer's website or by email. NAY (Duplicative and does not contemplate that some businesses may not have a website and having to send every document to employees by email creates administrative overhead.)
