Planning ahead can protect more than your property - it can help save lives. That is why I put together this Hurricane Safety Checklist with items that may already be in your home. Although this is a general hurricane kit list, you should keep in mind any of your family's particular needs as you prepare. - **Senator Ken LaValle**

### Pet Emergency Evacuation Tips

*Pets are currently not allowed in shelters*

- Plan ahead by calling hotels and motels outside of your immediate area to see if they accept pets.
- Ask friends and relatives who are out of the evacuation area if they could shelter your pet.
- Prepare a list of boarding facilities, veterinarians or animal shelters that provide emergency shelters.

If you must evacuate, the best way to protect your pets is to evacuate them too – do not leave them behind where they can be injured or lost!

For more information about how to protect your pets in the event of a hurricane, you can contact the Pet Safe Coalition at **516-404-5513**, the Suffolk County Office of Emergency Management at **631-852-4900** or the American Red Cross at **631-924-6700**.
