

Ways to Make Every Day Earth Day

Every day on this earth brings joy and happiness to everyone.

We love Mother Earth so we must always shower her with kindness.

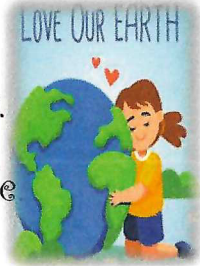

I love Mother Earth so I will not put litter in the ponds, rivers and oceans.

I will remind my friends and family of the 3 R's: Reduce, Reuse and Recycle

Of course, we must place all empty cans and bottles in the garbage and remember to reuse and

recycle when we can!

My mom is a big shopping fan and she always has her reusable bags in the back of the minivan.

Each week dad loves to wash our minivan

and water the

but I told him that's not so neat because we should try to reduce water use each day of the week.

I think my family and friends are starting to understand that every day can be Earth Day when we stick to the plan: reduce, reuse and recycle as often as we can!
