

Why?

Why?

Why?

Why?

Why?

We need to save our planet because it out ONLY home. Earth gives us important resources such as clean air, water and food that we need. When we protect our Earth we are also protecting animals, plants and making Earth more habitable for future generations. Its not just about us now its about the future of humanity.

Why?

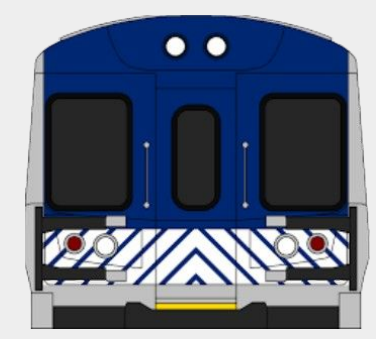

There are many ways to keep our Earth safe and most of them take but minimal effort. Its a small price for a big reward saving our planet. Lets take a look how we can achieve a better future...

LET'S

RECYCLE

TAKE

USE PUBLIC TRANSPORT

LOOK

CONSERVE WATER

USE CLEAN ENERGY
