

My Earth

Earth my sweet earth,

Turned into shambles,

Filled with pollution,

Trees my sweet trees,

Supply the oxygen we breathe,

Air the sweet air that supply our lungs,

Second hand smoke that comes from,

Cigarettes the same ones that you,

Smoke, You say that you want a clean,

Earth but yet do nothing to keep it clean

Garbage, garbage that goes into our

Sea and ocean,

The sea and ocean that give clean,
Clean water, You say you want a clean,

Earth, well take the initiative and do
Something, Anything
