

What I am Thankful For.

Hi, I am Jacob Santos Torres. I go to school at Alexander Hamilton as a 10th grader, what I am thankful for is being alive and having a roof on my head. I am also thankful for being who I am now, an athlete, singer, and smart person, I could not be these things without my mother and father. That's why I am thankful for them. And last but not least I am thankful for you being our senator being a leader making our town a better place so thank you and never quit doing your job because i know everyone would be different without you in the world.

Thank you For everything. 🧡

Sincerely: Jacob Santos Torres
