

## **What Are You Thankful For?**

To be thankful means to appreciate and to be grateful for things that have. Some other reasons are to not be spoiled and not wish for everything, you should be thankful and grateful for everything including having a roof over your head because some people don't get that stuff. Not even food and water! Thankful means to thank that you have all the things you need, like water, food, and especially family! You should always be thankful!

I'm thankful for my mom because I don't know what I would do without her! I love my mom and if I'm feeling sad she will be there, if I don't know what choices to make she'll help me, if I'm feeling lonely she will hug and comfort me. She loves me so much and would do anything for me. She's always going to be there for me and I will do the same for her because I love her more than anything in this world.

I'm thankful for my brother. Although we fight every single day, I know if it was something serious, he would protect me. He is a good older brother. We play lots of sports together, tackle football, basketball and wiffle ball. He teaches me how to be athletic, but sometimes he screams at me. But I know it is out of love. I thank god everyday we have each other.

I am also thankful for our first responders. They are here to protect us in any emergency we may have. If someone gets hurt or even in an accident, I know to call them. I would be afraid if we didn't have them. The police officers, fire man, nurses and doctors all make me feel safe living in America. I am so thankful they risk their lives to save other people.

As Thanksgiving comes close, it is important to take a second and think about everything that you are thankful for. This makes sure you do not take anything for granted. Also it is important to tell these loved ones how thankful you are for them. I am sure they would love to hear it.
