

## What Are You Thankful For ?

*To be thankful is to be happy with the stuff you have. If your friend has a toy you like and you don't like what you have and you steal their toy that is being greedy. Instead, I would be grateful for the toy I do have.*

*I am thankful for my family because they take care of me, they love me and they do everything for me and with me .I am thankful for my friends because they are nice, caring and kind. They are always there for me when I'm upset.*

*I am also thankful for the basic supplies I have because without it I would not be able to live .Without shelter you would be on the streets and in the rain and all the bad weather. You can't survive without food and water and you would also not stay warm during the winter without the appropriate clothes.*

*I am also thankful for God because without God nothing is possible. I am thankful God gave me the good life I have.*

*Another reason I am thankful for God is because if he didn't create anything nothing would exist.*

*This is what being thankful is and these are the things I am thankful for.*

*Ademolu*
