

What Are You Thankful For

Thanksgiving Day Essay

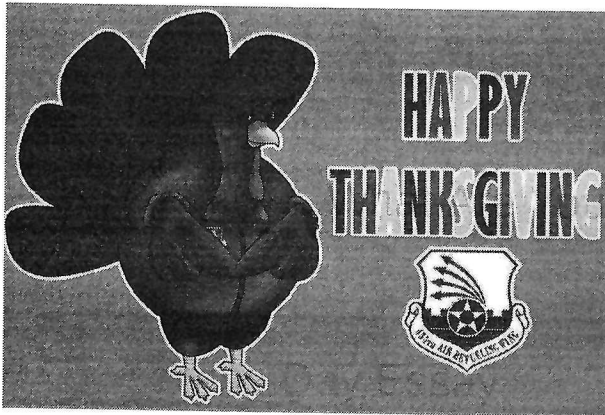

Mrs. Ferris

Grade 6

Our Lady Of Good Counsel

By: Andrew Michael Bosco

To: New York Senator, Andrew Lanza

In this world there are many things that I am thankful for. First, I am thankful for all my family and friends, that I get to see them almost everyday of my life as I grow older.

Second, I am thankful for this great country that I am lucky enough to live in, the United States with great leaders and political figures such as the president, vice president, and many more, for giving us a great country to live in and protect us from war.

Third, I am thankful for the state of New York With our great government like you Senator Andrew Lanza whom this essay is being written to and for all the opportunities that I have living here.

Fourth, I am thankful for all the food that I have to eat, water to drink, and school to attend for all my education. Finally, I am thankful for all the people in my life who helped me become the person I am today ready to live life to the fullest as long as I have it.

These are all the things I am thankful for in my life and I am just the luckiest person in this world as some other people may not have all the opportunities that I have in life and I pray that God can turn their lives into the direction of all these opportunities that I have so they can live life like me being thankful for every second of it. I thank

Senator Andrew Lanza for giving all the people in this great state of New York these opportunities like me because I am so lucky to live here.

These are all the things I am thankful for, and I hope that everyone can have a great Thanksgiving with their families. To all the people who celebrate thanksgiving, have a good thanksgiving!
