

I'm thankful for many things in my life. Some of these things include police officers, fire fighters, and our country. I am also thankful for my family, teachers, principal, and friends. I am thankful for all acts of kindness from people

Our police officers keep this city safe. I'm thankful for all the veterans that risked their lives for protecting our country. Our amazing fire fighters risk their lives saving people from fires. I am lucky to have such great teachers and a great principal. Most importantly, I am thankful for my family, because they take care of me and love me. They give me a place to live, clothes and food.

I'm thankful to all my friends who stand up for me. Lastly, I'm thankful for our President and the economy of this country. I am lucky to have all these amazing people in my life. I am thankful for everything this country has given me and my family.
