

# I'm So Thankful!

Name Nate Keller

Date 11-28-24

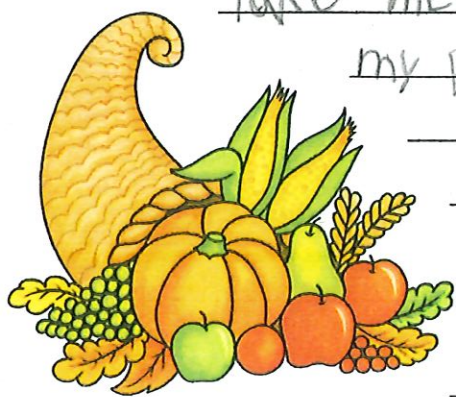

Thanksgiving reminds me of all the good things I'm thankful for. I appreciate my home, money, and friends.

I'm especially thankful my home because it helps me stay alive. It keeps me alive because it keeps me warm. It also keeps me alive because my home is the only place to get food. My home also helps me not get sick. Finally my home helps me see my family.

I also appreciate money because it helps my parents buy a home. It also helps them pay for food. Money helps me because it gets me everything I need to survive. It also helps my family buy a car so I can go on trips. Finally, it lets my family buy a house in my neighborhood to be a part of a safe community.

Finally, I'm grateful for friends because they help me with homework. I'm also grateful for friends because they make me happy. My friends also help me not get hurt. They let me play with them. Finally they take me home to play with them when my parents aren't around.

I enjoy Thanksgiving because this is when I can say thanks. My home, money, and friends are what I am thankful for this year.
